SAJID AL RAIAN

Aspiring Full-Stack Developer | CSE Student

Location: Barishal, Bangladesh • Phone: +880 1795404117 • Email: **raian.12511010.cse@gmail.com** •
GitHub: **github.com/sajidraian** • LinkedIn: **linkedin.com/in/sajidraian**

PROFESSIONAL SUMMARY

Computer Science & Engineering student with strong fundamentals in algorithms, structured programming, and full-stack web development. Proficient in building end-to-end web applications utilizing modern JavaScript/TypeScript ecosystems including React.js, Next.js, Node.js, and MongoDB. Passionate about software architecture, clean code principles, performance optimization, and active open-source learning.

TECHNICAL SKILLS

Languages:	C, C++, JavaScript (ES6+), TypeScript
Frontend Development:	React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design
Backend & Databases:	Node.js, Express.js, MongoDB, RESTful API Design, JSON Web Tokens (JWT)
Tools & Workflow:	Git, GitHub, VS Code, Postman, NPM, Linux Command Line Basics

KEY PROJECTS

BazarDor — Digital Marketplace Platform | Next.js, React, Tailwind CSS, Node.js, MongoDB

Live Demo • GitHub

- Architected a scalable full-stack e-commerce application allowing real-time product browsing, filtering, and transaction tracking.
- Engineered custom RESTful APIs with Node.js and MongoDB for dynamic data querying and secure user session management.
- Designed a mobile-first, responsive user interface leveraging Tailwind CSS to ensure seamless rendering across devices.

FitLog — Personal Fitness Tracking Application | React.js, JavaScript, Tailwind CSS, Node.js

Live Demo • GitHub

- Developed a feature-rich fitness tracking dashboard for monitoring daily workouts, calorie metrics, and personal goals.
- Implemented client-side state management in React to deliver dynamic real-time data updating without page reloads.

Dev Stack Builder — Interactive Stack Configurator | TypeScript, Next.js, Tailwind CSS

Live Demo • GitHub

- Built an interactive tool assisting developers in discovering, comparing, and structuring technology stacks for new projects.
- Utilized TypeScript for robust type safety, reducing potential runtime bugs and improving component maintainability.

EDUCATION

Bachelor of Science in Computer Science & Engineering (B.Sc. CSE)

Expected Graduation: Dec 2028

University of Global Village — Barishal, Bangladesh

- **Core Coursework:** Structured Programming (C/C++), Data Structures & Algorithms, Database Systems, Web Development, Object-Oriented Analysis & Design.

ENGINEERING PRACTICE & DEVELOPMENT

Independent Full-Stack Developer

2024 – Present

- Building modular frontend and backend projects continuously to deepen expertise in asynchronous JavaScript, APIs, and modern deployment pipelines.
- Active contributor on GitHub; regularly practicing algorithmic problem solving and writing clean, maintainable, self-documented code.
